

GERMAN COURSE: INSTRUCTION

I was pleased with the quality of the instruction. Professor Ditmars is very knowledgeable and conversant with the language.

Patrick O'Brien

You are Great Ron! I got a great class!

Tarsisius Sigho

Generally, instruction was very good. It was a challenge and it was very helpful. I liked that little extra push. My one-on-one session was an excellent tool.

Brittany Emens

The instructor did a great job of keeping everyone involved, which is difficult over the phone.

Kathryn Poticher

It was very high quality. First of all, the professor is so kind and patient that all of us I think had a very good time during study, asking questions freely. Secondly, all of those materials provided gave me a lot of help to learn much more about German even some of them that are not available from the text book, such as CD's, MP3, 100 stems, and so on. Thirdly, we had a much longer time, 8 weeks, which is better than only 3 weeks. I will recommend my friends who want to learn German in the future.

Joseph Rong Pin Li

Overall, I think the instruction has been good. I feel like I have a pretty good initial grasp of the German language and, hopefully, with some more practice over the summer, I'll be in good shape for my proficiency exam!

Renee Mitchell

Quality of the instruction was generally quite good. Ron has a patient demeanor and what I think I enjoyed most was listening to his explanations/breakdowns of the grammar and homework sentences. Sometimes I felt like I would have just liked him to explicate them rather than have other students do it, b/c sometimes this could get more confusing (and there were a couple of students that I honestly could not understand).

Jennifer Plyler

Mr. Ditmars is a very good teacher and he strives to make the class interesting as well as to assure the student's success in the course and ensuing proficiency exams.

Rene Mercado

Very encouraging and challenging at the same time. Walking through grammar with explanations is very helpful. Thanks for the flexibility and hard work.
